

Dear Bluebell Class,

We hope everyone has had a wonderful Easter and managed to enjoy some sunshine.

Thank you so much to everyone who has been uploading fantastic photographs of what your child has been busy doing over the last few weeks. EEXAT is a really useful way of us keeping in contact and for us to see all of your wonderful efforts at home. So please continue to use it as you have been doing, it has made us very happy indeed! *If you need a new login please let us know by emailing Mr Woodward, confirming you are happy for one of the teachers to contact you directly with the new login details.*

Mrs Allan and Miss Taylor have been working hard to set a number of weekly challenges for your child to complete whilst at home. Hopefully this has been manageable and you have enjoyed doing them as a family.

Going forward each week we will set 4 challenges which are most beneficial for your child's learning and will ensure they continue to make progress in their reading, writing and maths skills.

We are very aware that many of you are not only juggling home-schooling a number of children but are also continuing to work from home yourselves. With this in mind we have also included some additional activities, which are designed for your child to access and complete more independently. These are optional so please just do as many or as few as you can.

## SUNFLOWER UPDATE!!

I hope by now everyone who has planted a sunflower has started to see a shoot or two. Both Mrs Allan's and Miss Taylor's sunflowers are doing really well.

Miss Taylor's tallest sunflower measures 6cm tall with Mrs Allan's tallest sunflower way ahead measuring 9cm tall.

If your sunflower has started to grow a shoot please measure how tall it is and let us know on EEXAT along with a photo. We can't wait to see them. You might want to start a diary of your sunflower's journey from seed to flower.

You can watch exactly what happens beneath the soil by clicking on the following link. This time lapse video shows the germination of the seed and growth of the sunflower. It's pretty cool!

As always please continue to read daily, this includes reading to your child as well as hearing them ready to you. We would of course love to see which books you have been sharing on EEXAT so don't forget to log on and post a photo!

Take care and stay safe. Mrs Allan and Miss Taylor
