

Dear Cornflowers and Parents

I hope you are all well it's been lovely to hear from some of you and to see how busy you have been.

I have added some reading comprehension and another maths challenge to our class page, but don't forget that there are lots of other resources on the website too. The Oak Academy has a schedule up and running; it is user-friendly and the easiest way to use it is to follow the daily lesson schedule. If you haven't started yet, or you are not managing to get through all the lessons don't worry you can go back and look at previous lessons.

The link should take you straight to the page for this week.

Please have a look at the **English** and **maths** lessons. The English lessons so far cover work that you should be familiar with but the maths this is a new topic for us - a fun one on co-ordinates, reflections and translations. Maybe you could do a bit of art work based on some of these ideas.

Here's the link

<https://www.thenational.academy/online-classroom/year-5#schedule>

Please feel free to look at the lessons for other Year groups if you need to.

The foundation topics do not fit in with our own topics but they look quite interesting, so if you get time to, have a look at them too.

Keep well.

Mr D
