

Dear Snowdrop Class,

We hope everyone has had a fun Easter and managed to stay safe and enjoy some sunshine.

Thank you so much to everyone who has been uploading fantastic photographs of what your child has been busy doing over the last few weeks. **EEXAT** is a really useful way of us keeping in contact and for us to see all of your wonderful efforts at home. So please continue to use it as you have been doing, it has made us very happy indeed! *If you need a new login please let us know by emailing Mr Woodward, confirming you are happy for one of the teachers to contact you directly with the new login details.*

Mrs Kennett and Miss Taylor have been working hard to set a number of weekly challenges for your child to complete whilst at home. Hopefully this has been manageable and you have enjoyed doing them as a family.

Going forward each week we will continue to set a range of challenges which are most beneficial for your child's learning and relate directly to The Early Years Foundation Stage Guidance.

We are very aware that many of you are not only juggling home-schooling a number of children but are also continuing to work from home yourselves so keep in mind that these are optional and please just do as many or as few as you can.

SUNFLOWER UPDATE!!

I hope by now everyone who has planted a sunflower has started to see a shoot or two. Mrs Kennett is patiently waiting for hers to appear. Keep your fingers crossed!

Miss Taylor's tallest sunflower now measures 17cm tall! If your sunflower has started to grow a shoot please measure how tall it is and let us know on EEXAT along with a photo. We can't wait to see them.

Why not take this opportunity to do some sunflower art. Below are some ideas of a range of different media you could try.

You can also watch exactly what happens beneath the soil by clicking on the following link. This time lapse video shows the germination of the seed and growth of the sunflower. It's pretty cool!

Take care and stay safe. Mrs Kennett and Miss Taylor.
