

Hello Super Sunflower Class,

Thank you to those of you who have sent me emails, it's been lovely to hear from you and see your pictures ☺!

Parents, please give your children a big hug from me and tell that that I am really missing them and that I can't wait to see them again soon. I also want to thank you for all of your hard work during this difficult time - you are doing amazing, even if you don't feel like you are sometimes! Remember every family and their circumstances are different so please just do what you can and do not pressurise or compare yourself to anybody else!

We would now be looking at the new topic of 'Dinosaurs'. I have uploaded some useful documents to help teach your children some things about Dinosaurs over the coming weeks. During this topic we would have been learning about different types of dinosaurs, their diets, where in the world they lived (learning about the different continents and oceans). We would have also been learning about the wonderful paleontologist 'Mary Anning' and looking closely at fossils. Have a look at the 'Dinosaurs Ebook' or the 'Dinosaur PowerPoint' that I have uploaded as it provides lots of interesting facts and information. I have also attached a document with some ideas of things to do with Dinosaurs.

Also, please continue to practise phase 3 and 5 phonics sounds, practise reading these sounds and applying them to words. Just slowly work through each sound, even if it's just two sounds a week ☺

For Maths please look at <https://www.thenational.academy/online-classroom/year-1/maths#subjects> for lessons and activities. In school we would have also been looking at Measurement, Length and Mass.

Stay safe, missing you all!
Love, Mrs Heys xxxx
