

2 to 12 Times Table Multiplication and Division Board Game

Roll the die and work out the multiplication or division you land on. The winner is the first to finish!

The board is a spiral starting from the center and moving outwards. It is divided into colored segments: yellow, orange, green, purple, blue, and pink. The spiral path is marked by a series of white circles containing math problems or action instructions. The path starts at the center and ends at the 'STAR' space.
