

Week beg: 01.06.2020 activities

Log on to Purple mash and complete the 2dos that I have set.

<https://www.purplemash.com/sch/stjamesk13>

Email me for your log in details if you can't find them in your red homework book.

Go onto Oxford owl and read 2 books from your book band (or the band above) See letter for details on how to log on.

<https://www.oxfordowl.co.uk/>

Write a list of all the fun things you've done this week.

Watch Deadly Dinosaurs

<https://www.bbc.co.uk/cbbc/shows/deadly-dinosaurs>

or Andy's Dinosaur adventure

<https://www.bbc.co.uk/cbeebies/shows/andys-dinosaur-adventures>

Write a letter, card or draw a picture to a family member and post it to them. Learn how to send something in the post, how to write an address on the envelope, where the stamp goes, and put it in a real postbox.

Draw a picture and write a couple of sentences telling me what the first thing you want to do is once lockdown and social distancing is over. It could be to hug a grandparent, to go swimming, to go to the sealife centre, to go to the cinema? It's whatever you choose!

Can you create and make a weather chart? Track the weather each day to remember what the weather was like during lockdown. Practise writing the date and drawing a symbol to represent the weather. Try and write the word too. E.g Sunny, Windy, Rainy etc (See template)

Have a go at the -hide-a-saurus addition activity (see activity sheet)

Or have a go at some of the pages in the Dinosaur maths booklet I have uploaded (see booklet). Remember the greater than and less than symbols. We think of the symbols as a crocodiles mouth and that the crocodiles mouth (< >) always eats the biggest number. E.g.

$18 > 10$

$2 < 10$

$10 = 10$

Can you make some giant bubbles? All you need is water, washing up liquid and glycerine (for the mixture) and straws or sticks and string (for the bubble wand).
