

Monday 1st June

We hope you enjoyed our topic 'Bounce'. Today we will begin our new topic 'Wriggle and Crawl'. Let's hope the weather stays nice as we will need to spend a lot of time outside during this topic!

Today we would like you to go in your garden or go for a walk and observe and identify minibeasts in their natural habitat. Remember to lift stones and logs and clear away leaf litter to see what you can find. Observe the creatures closely looking for patterns, number of legs, watch how they move, you will need to be quick before they wriggle away!

Activity

Make a list of what you find and record how many using a tally chart.

See chart provided or you can make your own.

Which one is your favourite?
