Four children : Lucy, Peter, Susan and Edmund step into a mysterious wardrobe and find themselves in NARNIA. It is always winter because of the evil White Witch that controls Narnia. It is sad near the end but there is a happy twist if you keep reading. I think the story is very good because the author (C.S Lewis) invents unusual creatures and shows us how we should stick by our friends. I really enjoyed this strange and mysterious book. My favourite character is Aslan the lion king because he is wise and kind.
