

Extra Science Challenge (week beginning 11.5.20)

Inspired by Joe Wicks #homeworkwithJoe

I thought some of you may enjoy this!

Can you create a Science quiz?

Think of 10 - 15 Science questions to challenge me and your friends.

Make sure you know the answers!

For example:

Question 1 .

What is the name of the substance that makes plants green?
(chlorophyll)

Question 2

What is the boiling point of water?
(100 degrees C)

If you like, you can send me your Quiz questions (and answers)
at the class email honeysuckle@st-james.derbyshire.sch.uk.

I will put them on the website to challenge your friends.
(with the answers hidden until the end)
