

## Skeleton Ideas!

Last week, you should have learnt a bit about skeletons. If you missed this, go back and have a look at the information.

This week, it's time to have a bit of fun with it. You could choose one of these ideas or come up with your own! I would love to see what you've done so email me at [alovera@st-james.derbyshire.sch.uk](mailto:alovera@st-james.derbyshire.sch.uk)

Idea	Example	Explanation
Cotton Bud Skeleton	 A photograph of a skeleton made from cotton buds. The skull is a white paper cutout. The ribs, spine, and other bones are made from the stems of cotton buds, with the heads cut off. The arms and legs are also made from cotton bud stems. The skeleton is positioned against a black background.	Use black card as the background and cotton buds to show the bones. Cut the cotton buds down for smaller bones such as the fingers. Give your skeleton a skull using white paper.
Pasta Skeleton	 A photograph of a skeleton made from various pasta shapes. The skull is a white paper cutout. The ribs, spine, and other bones are made from different pasta shapes like shells, tubes, and long thin pieces. The skeleton is positioned against a black background. There are handwritten labels in white chalk around the skeleton, such as 'Cervical vertebrae', 'Thoracic vertebrae', 'Lumbar vertebrae', 'Ribs', 'Humerus', 'Radius', 'Ulna', 'Carpals', 'Metacarpals', 'Phalanges', 'Tibia', 'Fibula', 'Tarsals', and 'Metatarsals'. The title 'Pasta Skeleton' is written at the top.	I know pasta is on short supply in some shops but if you have any pasta in your cupboards you could use the different shapes to show the different bones. Label each bone.

<p>Glow Stick Skeleton</p>		<p>If you've got any, stick glow sticks to yourself showing the bones in your body. Turn off the lights and do a skeleton dance!</p>
<p>Veggie Skeleton</p>		<p>Use a variety of fruit and vegetables to show the bones in the human skeleton. I like how this one has used peppers for the ribs. Make sure you eat it after to avoid waste!</p>

Last week, our lovely Miles got a big piece of paper and drew around himself. He then drew his bones onto the outline and labelled them. What a great idea!  
 Have fun skeletons!!
