Make a boat that floats? Where will your boat take you to? You could write a list of things that float and sink. You could draw and label a picture of where your boat will take you.

Exploring Shadows Step outdoors or near a window and explore the mysteries of light and shadows. Your child can learn a lot—like how to make shadows bigger and smaller and how shadows move. Enjoy the fun of observing shadows and how they change as you move about.

EAD
 Mail a hug to someone you miss. Ask your grown up to draw around the top half of you on really big paper. Cut it out and make it look like you. Post it to someone you would like to give a hug to but can't.
