

Wednesday 24th June

During lockdown we have both spent lots of time outdoors and in our gardens. We have also tried to grow our own vegetables. Have you planted anything? We would love to see!

Today we are going to learn about plants and trees found in the garden.

We would like you to go outside and see how many flowers and plants you can name. If you don't know its name you could ask a grown up or try to find out online or in a book.

Write a list of the plants, flowers and trees you can find.

Choose your favourite and have a go at drawing it. Remember to look closely for tiny details and try to match the colours as well as you can. You could use, pencil crayons, felt pens, paint or whatever you have got at home.
