

Monday 6th July

This week we would like you to make a themed restaurant. You might link the theme to the country you chose to learn about last week or you might want choose a completely new theme such as under the sea. Whatever you decide to do, we hope that you have lots of fun!

Have a think about the restaurants you have visited in the past. The food that was served and what made it special. Did you like the tables or fancy chairs, or was it because you could see the chef cooking your food?

Today we would like you to choose a theme for your restaurant and begin to jot down all of your ideas. This could be in a list or a mind map like we have done before.

- Choose your theme.
- Research your theme and use the internet for ideas
- Think about what the tables and chairs will look like
- The decoration and what will be on the walls.
- If there will be entertainment or music in the background
- And most importantly, what food will be served!
