

Look to the future!

Last week we looked at time travel to the past. Now for the future! What are your hopes and dreams for the next days, weeks, months, years and decades?

Next year, you will be a year older and most probably in a different situation than now. Look at the extra pages and write a note to your next teacher, jot down your aims and aspirations for the future. Remember to email your work to the cornflower address.

Here are some fantastic facts to show that it doesn't matter what age you are to do interesting things.

Crazy ages

Mary was only **six days old** when her father died and she acceded to the throne as Queen of Scots.

The oldest person to climb Mount Everest was Yuichiro Miura from Japan who was **80 years old!**

The oldest person who has flown in **space** is John Glenn, who was **77 years old** when he flew on STS-95.

Wolfgang Amadeus Mozart composed his first symphony, Symphony no.16, at the age of **eight years**.

Bafta announced Nikki Lilly as **youngest** award winner. Nikki Lilly was recognised for her inspiring work as a YouTuber, presenter and charity campaigner at only **15 years old**.

The oldest man who ever lived reached **115 years and 253 days!**

Can you remember how different tenses are used for the past, present and future?
Test your knowledge using the Purple Mash 2Dos that I've set.
