

Dinosaur Planet

Next Term, our new topic is 'Dinosaur Planet'.

We will start the topic with a WOW day on **Tuesday 5th January 2021**. This will involve a 'Dino hunt', where we will encourage the children to follow maps and plans to find examples of hidden 'dinosaur treasures'. Uncover dinosaur footprints, giant claws, teeth or even dinosaur nests with eggs. We will use excavation tools to find fossils in soil or sand trays, cleaning them carefully with soft brushes so they don't break. Then, encourage the children to talk about their discoveries, using the correct dinosaur vocabulary.

We would love it if you could dress your child as a Palaeontologists for the day, I have included some outfit ideas below. Alternatively, anything dinosaur themed would be great. We appreciate this is a very busy and expensive time of year so please don't go out and buy anything especially!

It would be great if you could spend some time chatting with your child about the job of a Palaeontologist ahead of our WOW day. The link below will take you to a great video which will introduce Palaeontology to your child. [Dig In To Paleontology - YouTube](#)

Many Thanks or your continued support
Miss Taylor and Miss Woods.
